Managing App Errors

XHR

Validation

Routing

Custom

Angular

Unexpected

What's in it for You?

Graceful UX

Track and Correct

Repeatable / Consistent Pattern

Custom Errors

Save failed: Person (22) - "firstName' is required'

[CC Error] Save failed: Person (22) - "firstName' is required'

AngularJS Routing Errors

Error routing to avengers.

AngularJS Injector Errors

[NG-Modular Error] [$injector:unpr] Unknown provider: loggerFooProvider <- loggerFoo <- dataservice

http://errors.angularjs.org/1.2.21/$injector/unpr?p0=loggerFooProvider%20%3C-%20loggerFoo%20%3C-%20dataservice

Handling Exceptions

Have an exception handling strategy

Be consistent

Track and log the exception patterns

Graceful UX
